Dan Godwin Community Center Update

Right:
Exterior painting is almost completed and exterior doors supplied by Bellingham Millworks will be installed this month!

Below: Thanks to All American Seamless Gutters, Inc., protecting the community center from the winter and spring rain.

Above left: Matt, Steve and Phillip (not pictured) from All Craft Construction, work with care and precision on every detail. Right: Hundreds of spring bulbs, donated by WalMart, have been planted by Michele Hill, Arc Board member.

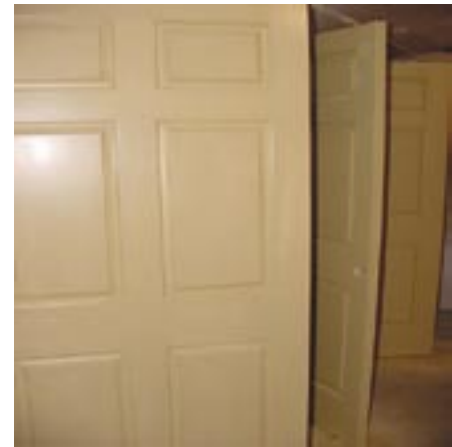

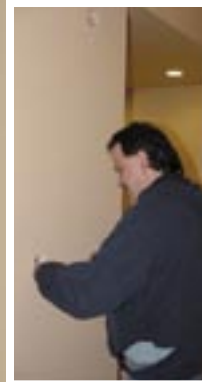

See how far we have come!

Below: Berg Builders Inc. spent hundreds of hours framing in our walls so that CB Wholesale Inc. and Cascade Drywall could work their magic!

As we move closer to our grand opening on May 30 (mark your calendars), we would like to thank the hundreds of individuals and businesses, particularly the good folks at the Building Industry Association, who have generously donated their time, building materials and talents. We could not do it without your support!

Left: Special thanks to Sherwin Williams for hundreds of gallons of our environmentally safe Harmony Paint!

Above and far right: Our doors, supplied by Buyers Market, and walls, are now painted a beautiful honey color thanks to Sturtz Finishes. This warm color was chosen through the expertise of interior designer Chris Veseth. Chris generously donated her services to ensure that people feel right at home in our new community center.

Above center: Aaron (not pictured) and James from Local Electric have earned our gratitude for brightening the Community Center through their electrical expertise. A very special thank you to Dan and Barbara Darkes of Tallahassee, FL for their generous donation!
